Are our authorised agents and distributors to sell and market the full range of VEM motors to Mines and General Industry in Zimbabwe, as detailed below:

- VEM standard motors (highest quality) from 0,09 kW to 315 kW
- VEM sparkproof motors (highest quality) from 0,25 kW to 315 kW
- CEMP flameproof motors from 0,12 kW to 55 kW
- VEM high voltage motors to 11 KV and 26 MW
- VEM slipring motors from 4 kW to 132 kW
- AEM slipring motors from 132 kW to 1000 kW

The features of the VEM standard and sparkproof motors are:

- Manufactured to ISO 9001 quality control (accredited)
- For continuous and intermittent duty
- Meeting a variety of International standards including IEC standards
- High motor efficiencies
- Insulation class F
- Available for 380V, 525V, 550V, and 1000V
- Standard operation up to 40° C ambient (higher available as special)
- SANS 1804-1 & 2 / SABS 1804-1 & 2:2007 approved

Please contact Engineering & Electrical Supplies for all your VEM electric motor requirements.

Yours Faithfully,

Peter Martin
